EMAIL NEWSLETTER DISTRIBUTION

In the interest of efficiency and the environment Christies Beach Primary School is moving towards distributing our newsletter via email or through our website. If you weren’t already aware, our website at www.cbeachps.sa.edu.au, has our newsletter published as well as a range of other useful documents and information.

Another benefit of setting up the email distribution will enable us to open up another line of communication with the community and send other notices and information out this way. Our intent is to continue distributing the newsletter in paper form for the remainder of 2014 with the email and website running alongside of this. We will review this approach later in the year to gauge its success.

We realise that there are some people in our community that do not have access to the internet or email. For those people we are happy to continue to provide the paper based version, but it will be printer in house, rather than by a professional printer. We expect these numbers to be low, which will mean a big saving for the school.

Please complete and return the tear off section below to advise us of your email address(es) that you wish to receive these communications, or to notify us that you do not have the ability to receive it electronically. Please also pass this information onto community members or family members you think would be interested in receiving this information.
